

CLAIMS

I claim:

1. An apparatus comprising

a light emitting source having at least two terminals;

a portable power source; and a printed circuit board containing an integrated circuit;

wherein the light emitting source, portable power source and the printed circuit board can be combined in a first configuration such that the light emitting source is in a first state, and wherein the light emitting source, portable power source and the printed circuit board can be combined in a second configuration such that the light emitting source is in a second state, wherein the first state differs from the second state.

2. The apparatus of claim 1 wherein

in the first state the light emitting source emits light of a first color; and

in the second state the light emitting source emits light of a second color.

3. The apparatus in claim 1 further comprising

an attachment device for attaching the light emitting source, portable power source, and printed circuit board to an object.

4. The apparatus of claim 3 wherein

the object is a plant.

5. A method comprising the steps of

attaching an apparatus to a object;
wherein the apparatus is comprised of

a light emitting source;
a printed circuit board; and
and a power source;

wherein the light emitting source, portable power source and the printed circuit board can be combined in a first configuration such that the light emitting source is in a first state, and wherein the light emitting source, portable power source and the printed circuit board can be combined in a second configuration such that the light emitting source is in a second state, wherein the first state differs from the second state.

6.The method of claim 5 wherein

the object is a live floral arrangement.

7.The method of claim 6 wherein

the object is a live plant.

8.The method of claim 6 wherein

the object is an artificial plant.

9. The method of claim 6 wherein

the object is an artificial floral arrangement.

10. The method of claim 6 wherein
the object is a Christmas tree.
11. The method of claim 6 wherein
the object is a gift container.
12. The method of claim 6 wherein
the object is a person.
13. The method of claim 6 wherein
the object is a gift item.
- 14 The method of claim 6 wherein
the object is a gift wrap
15. The method of claim 6 where in
the object is a candy arrangement.
- 16 The method of claim 6 wherein
the object is a animal.
- 17 The method of claim 6 wherein
the object is a display unit.

18 The method of claim 6 wherein
the object is a card holder
